

ISO 9001:2015 certified Company

JK BRASS INDUSTRIES

— QUALITY WITHOUT COMPROMISE —

**Manufacturers & Exporters of
Precision Metal Components & Fittings**

About Us

20+

Years of
Experience

JK Brass Industries, established with an aim of manufacturing best quality metal products. Since the inception, our focus is to work for continuous improvement through appropriate training to our loyal workforce and also investing into the latest technology CNC machinery in order to stay at the forefront for massive manufacturing.

Our company is a value driven organization based on the strong foundations of reliability, innovation and pioneering technology working towards the ultimate core focus of maximizing highly delighted customers worldwide. We believe in quality, honesty, transparency and are committed to produce high quality components as per client's drawings, samples or standard reference.

Ethical Conduct In All Business Practices

We believe in respecting and having faith in our customers. We grow through creativity, invention, and innovation. Our core values include integrating honesty, integrity, and business ethics into all aspects of our business.

Our Mission

To continuously strengthen and upgrade our manufacturing processes, quality systems, and people competencies by training & education and providing a safe workplace.

Our Vision

To provide high-quality, value-added precision and fastening solutions and services, positioning our clients ahead of competition & at the forefront of technology.

Excellence

We strive for excellence in everything we do, delivering top-quality products and services, and continuously seeking ways to improve and innovate.

Why Choose Us

Modern Machines

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance metal components.

Cost Effective Price

The best part is we deliver high quality work at very highly competitive prices. We believe that price is a key to sales success.

Dedicated Team

We are a team of highly skilled & experienced professionals, who endeavor their best to achieve the goals of our company successfully.

Superior quality is the primary concern at JK Brass Industries. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

Our target is to provide zero defect products to our customer, which is remarkable and we firmly believe into it. Our plant is ISO 9001:2015 certified, a certification for quality management system which is being issued by the International Organization. To meet the global demand we take care at every stage right from raw material purchase to finished goods. We always strive to provide our customers with best quality products with zero compromise and 100% satisfaction.

Innovation Engineered To Perfection

Quality Control

Customer Satisfaction Is Our Top Priority

Our quality control department ensures that each product is manufactured with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control.

Training Policy

It is the all time practice of the company to train the entire staff regularly and keep updating the strength of company to produce excellent quality of products that meets with the highest level of the customer satisfaction all the time.

Quality Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product.

Packing & Dispatch

After inspection, each order is directed to a particular packing location. The completeness of whole order can be checked here optionally. Then the packing list gets printed and the whole order is packed and dispatched.

Brass Precision Components

We are leading manufacturer of Brass Precision Components providing customized products to achieve the desired specialization in the production of parts. These components are widely used in Engineering, Aerospace, Medical, Agricultural, and Machine Tool Industries. We are well known in the market for our various excellent products. We manufacture these components as per client's customized requirements. We manufacture these parts using high-grade raw materials like steel, stainless steel, brass, copper, aluminium and many more as per the industrial standards and customer specifications.

Brass CNC & VMC Components

CNC components are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. The range of CNC & VMC components are manufactured as per industry standards and norms. We always provide quality-approved CNC & VMC components to our respected clients. We ensure that our entire range of CNC & VMC components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

Brass Electrical Components

We are manufacturing all kinds of Brass Electrical Components and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Electrical Components, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

Brass Forging Components

We are specialized in Manufacturing of Brass Forging Components. We can Manufacture any type of Brass Forging Components, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly. We have a Unique Manufacturing Facility to develop Brass Forging Components as per customer's designs and requirements.

Brass Electronic Components

We manufacture and export precisely engineered Brass Electronics Components which are used in different machines and equipment. The wide range of Brass Electronics Components are widely appreciated for their durability and reliability. The range of Brass Electronics Components are manufactured in different standards, grades and finishes. Brass Electronics Components are widely used in different electrical and engineering industries.

Brass Automobile Parts

We are committed to manufacturing optimum quality and a wide range of Brass Automobile Components as per customer's specifications. Our brass auto parts are commonly used for different automobile and automotive applications. The range of Brass Auto Parts can also be used freely for different industrial application from automobiles to construction industries. Our experts make sure that our products suit perfectly to your complex project requirements. The Automobile Components are made of superior grade brass and other raw material in different sizes and range to meet the exact demand of our customers.

Brass Moulding Inserts

The wide range of Brass Inserts include threaded moulding inserts, ultrasonic moulding inserts, knurled moulding inserts, moulding inserts for plastic, wood moulding inserts and more. The range of standard and high quality brass moulding inserts are designed to be molded into the plastic, wood or any molded components. The brass used in the manufacturing of these Inserts is of optimum quality that ensures high durability, tensile strength and resistance to corrosion.

Brass Fasteners

We provide High-Quality Brass Fasteners with variety of types. Generally, Fasteners are hardware components that mechanically join two or more elements together. Brass Fasteners are easily removable without any damage to the joining components. They are made from brass, mild steel, stainless steel and other material composition. Brass Fasteners are defined various types such as Screw, Washer, Anchor, Nuts, Rivets, Inserts, Bolts and many more.

Brass is widely used in manufacturing brass fittings, plumbing fittings, flare fittings, garden hose fittings, compression fittings, transmission fittings, pipe fittings & threaded fastening, due to its excellent qualities as rust-resistance, hardness, wear-resistance, high tensile strength, durability and flexibility. The main key feature of brass Fittings is its excellent corrosive resistance, and also its plating, joining, polishing and finishing characteristics. Each brass fitting design use for specific application and purpose. Depends on the operation, specific Brass Fittings are used to join or connect two components or parts in industrial applications.

Brass Customized Parts

Brass Customized Parts are widely used for general fabrication, milling, fastening, machining, and other procedures due to their high reliability and durability. They are available in a variety of dimensions and are completely abrasion-resistant. Our customized components are precisely designed and engineered by our skilled professionals, who employ cutting-edge techniques and high-quality raw materials. The range of these metal components are manufactured as per industry standards and norms. We always provide quality-approved components to our respected clients. We ensure that our entire range of customized metal components is rigorously tested before final delivery to clients. They are always available in flexible sizes, dimensions, and shapes.

Brass Sanitary Parts

The Brass Sanitary Parts manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Jointer.

Stainless Steel Components

We Manufacture Stainless Steel Components, Stainless Steel Machine Components, Customized Stainless Steel Components, etc. Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability and precise designs. We ensure the most reliable products which are available in the best specification at the most profitable price range. Our products use in many industries like Automotive, Material Handling, Textile Industry, Medical & Engineering Sectors.

Aluminium Components

Aluminium Components are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market. As all our products are developed using technologies best suited to the latest industrial applications and consumer demands, they are known for exhibiting rich attributes. Aluminium Components are known for Rugged Construction, Assuring Proper Fitting, Durability, Outstanding Performance and Low Maintenance. These Aluminium Components are available in different sizes and configurations in the market as per customer requirements and specifications.

Copper Components

We manufacture and export a wide range of Copper Components including Copper Machined Components, Copper Turned Components, Copper Forged Components, Copper Casting Components, Copper Stamping Components, Copper Fasteners and more. Copper Can be machined, stamped, forged, cold-headed for manufacturing any type of components. Copper Components are widely used in electrical wiring, electronics, power generation, mechanical, transmission, telecommunication, automotive, and automobile applications. A wide range of Copper Turned Components is available in various sizes, shapes, types, coatings and other configurations based on customer specifications and requirements.

We Manufactures and Exports Brass Gas Fitting Parts : Male - Female Elbow, Flare Female Elbow, Single Barb Elbow, Flare Male Elbow, Gas Fitting Connectors, Barb T - 3 way, Compressor Female Elbow, Compressor Male Brand - T, Flare Equal Elbow, Gas Fittings Plug, Compressor Male elbow, Equal T, Compressor Union T, Force Barb - T, Brass Canteen Burner Valves, Main Line Shut off Valves, Brass Needle Control Valves, Brass F Valves, Straight Nozzle Valve, Brass Non Return Valve, Brass Lpg Cylinder Valve Fittings, Brass Gas Valve, Brass LPG Equipments..

Infrastructure

At JK Brass Industries, we prioritize excellence through our state-of-the-art in-house manufacturing facility, equipped with cutting-edge machinery and operations leveraging innovative technologies. The industrial landscape boasts the latest and ultra-modern automatic equipments that defines the pinnacle of technological advancement, managed by a team of highly experienced and skilled staff dedicated to producing materials of controlled quality. This machinery is not only a testament to our dedication to staying at the forefront of industry standards but also a reflection of our commitment to quality. We not only prioritize quality production but also contribute to a greener and more sustainable future. Our dedication to environmental stewardship reflects our holistic approach to responsible and forward-thinking manufacturing.
